

Youth Leadership Programme

The Youth Leadership Programme is meant for Students of Higher Education Institutions. YLP provides four types of training programmes, the Corporate Behaviour and Connectivity Training, Psychology & Psychometrics of Youth, Global Leadership and Behaviour Modification Training and Awareness Programme on HR Practices and the Reality Picture in Industries. The main aim of YLP is to train youngsters to take up Leadership positions in future. YLP also intends to create awareness on the job-market scenario, realistic job environment prevailing in different industries and an understanding about HR practices followed by different corporate sectors. This will facilitate students to prepare themselves well for the recruitment process and enhance their corporate adaptability skills.

This programme offers complete training to upgrade the behaviour competency of students and help in formulating compelling vision that will inspire you to perform, even beyond your own expectations. The positive transformation in personality that would take place during the execution of this programme will in turn help students compete with challenging situations and expanding their employability horizon.

Summing up to say “This is the course you were looking for, as this is designed exclusively for your professional escalation”
