

Brief Report on the visit of Japanese officers to Crescent

Date: 18th September 2019, **Time:** 14.00 – 17.00

Objective of the visit: To promote sponsored projects, research, consultancy and training.

About the Amatec Yanaco Corporation:

Yanaco group has proven to be the pioneers in the field of analytical instruments. Yanaco’s convinced technology is born from repetitive cycles of hypothesis, experiment and verification carried out by its devoted engineers. This technology has later transformed into confident products that are tailor-made to meet the requirements of the industry. Yanaco’s century long history must lead to the future. Amatec Yanaco contributes to connect accumulated history of technological measurement/analysis with up-to-date technology.

Brief Report

Mr. Yorkio Yanagimoto, Ms. Shodai Yanagimoto, Mr. Yathi Rajesh, K along with Mr. Nandagopal of kankyo have visited our institute and had detailed discussion on the possibility of developing joint projects to promote water related problems through environmental measuring equipment. They had a detail discussion at ESPAC office, Registrar Prof. A. Azad, and our Honorable VC sir.

Outcome:

They also visited STP plant and 4 pilot plants and analyzed the possibility of installation of various environmental measuring equipments in our campus for continuous measurement of various parameters. Our faculty from Civil Engineering Dr. V.S. Priya madam and Mr. Y. Ibrahim have also interacted and had a detailed discussion with them on the possibility of developing joint projects.

Interaction with Prof. T. Harinarayana at ESPAC office

Interaction & discussion with Prof. A. Azad, Registrar
