

5.6.6 c - Counselling

COUNSELLING

Crescent Professional Counseling Centre offers the much needed counseling and human values to the needy students and staffs of this institute. The Centre is located in First Floor of Convention centre where the privacy and confidentiality of the client(Students and Staffs with the issue) are maintained. The Counselling is offered for the following issues, 1. Academic Issues 2. Interpersonal Problems 3. Frustration Tolerance Issue and all these issues are rectified through cognitive behaviour of the client and Clinical Psychological methods along with that Psychological Interventions is applied for all the needy clients. Dr.Hameed Kadar Ali is the Professional Counsellor who is heading the Counseling exceptionally well since he has having vast experience and he has more than three decades of experience in Madras Medical College. Approximately more than 10 clients were addressed per week.

The Proposal

- Student and faculty life is getting complex day by day, majority of them lack a sense of direction, purpose and fulfillment. They indulge in destructive activities, which lead to social damage and loss
- Adequate guidance and counseling facilities is the only answer to help and guide the youth to worthwhile channels and help them realize the goals of optimum academic, personal and social development
- Guidance and Counseling aims at helping the student to understand and accept themselves “as they are”

There are 60 residential flats for executive teaching and non-teaching staff. Their presence on campus makes them accessible to the students in need of counsel and helps ensure prompt response in case of any eventuality. Their accessibility reassures and inspires the student community.

The experience of graduates of university life while they were students in programmes of study in this University, and their experience following their graduation can be very useful for students currently on campus. The University hopes that alumni will return to the campus from time to time, and counsel and guide our students, as appropriate.
