**M/s Mosaique Pvt.Ltd, Japan**

1.Mr Hiro Ishida (CEO/Founder)

E.mail Id [ishida@mosaique.link](mailto:ishida@mosaique.link)

2. Mr Arjun

3. Mr Sathya Murthy

**M/s Kankyo Global Pvt.Ltd ,**

4.Mr. Devanand. P

5.Mr. Sriram

**BSAR Crescent Institute**

6.Dr T.Harinarayana

7. Dr C.Tharini

8. Dr.Najumnissa Jamal

9. Dr .V. Muralidharan,,

10.Dr. H .Siddhi Jailani,

11.Dr. Karthikeyan Ramalingam,

12.Dr N.Prakash

Dr Hiro Ishida made a presentation showing new technology, which would be likely to be transferred to Indian firms/ Industries/ Institutes. The different technologies discussed are the following,

1. Green Rickshaw
2. HPHT equipment to decompose waste
3. IOT in Agriculture
4. Rejuvenating the cells
5. Japanese Language training and skill development.

- After discussion the following are the outcome of the meeting.

1. Their two new products will be installed in our campus on a pilot scale to take up R & D activities.
2. Industry skill development courses will be initiated to make our students industry ready with new Japanese technology.

- After the meeting they also visited the waste Management location and agreed to send the pilot units to our campus to take up R & D on the units and submit the reports.

- Under Skill development, Government of Japan is teaching Japanese endowed courses related to IT sector, Mechanical Engineering, Electrical Engineering etc.
- They also provide quality certificates to the students after evaluation. In India a few institute are already availing such courses in different institution such as IIT Guwahati, Sri Shakti Institute of Engineering, Chennai, MGR Education Institute, Chennai, SRM University, Haryana etc.
- Our Institute can also initiate such specialized training programme in order to make our students industry readiness.
