

THE CENTRE FOR SUSTAINABLE DEVELOPMENT

Date:08-04-2022

Report on the visit of Miss Ann Alexia Anra, Sustainable Consultant from M/s Wasted 360 Solutions.

As a part of sustainable development on waste management, we have invited Ms. Ann Alexia Anra to our institute in order to share her knowledge and experience on waste management. She visited our institute and interacted with our team and Dr.Vasanthi Padamanabhan, Dean, School of Infra Structure along with Dr.A.K Kaliluthin, Dr Priya, of Civil Engineering.

During the discussion, the following items were discussed and planned.

1. An open session related to environmental awareness will be provided to the needy faculty and environment related students.
2. After the above awareness program, a more detailed training program will be provided to the civil engineering and architecture students.
3. The team of 'Wasted 360 Solutions' company officers have well appreciated the efforts being taken by our institute on waste management related to food waste, dry waste, agriculture waste and also waste water management.

On this occasion, Centre for Sustainable Development (CSD) team would like to thank Ms Mariam Khadija, daughter of our Chancellor for introducing her to our office and helping us to promote waste management solution.
