

Uniqueness of Chemistry Department

The Chemistry department in the Institute is unique. It is the first department with all the faculty members with Ph.D degree. They have research expertise in varied fields and their Thrust Areas of Research include

Organic Synthesis

Material Synthesis

Catalysis

Photovoltaics

Polymer Chemistry

Environmental Chemistry

Photochemistry

Corrosion

- The Department has modern laboratories equipped with sophisticated instruments opening new vistas for teaching and research.
- More than 55 Research Scholars are pursuing their Ph.D. programmes and many of them have been enrolled as Junior and Senior Research Fellows.
- Department has received funded projects from CSIR, DST-SERB, DST- WOS-A, etc., with a total grant amounting to 2.5 crores in the last three years.
- The department has been periodically organizing national conference to enable the research scholars to interact with researchers from all over India.
