INVITATION

Collage of the Event

Director, CSD briefed the techniques to the teachers on how to motivate the students using different teaching methods. He also gave ideas on teaching skills that need to be cultivated in faculties to make the students more knowledgeable in subject. He educated about the mechanism of sensors in our body to understand any concept. He gave tips on the brains memory capability and retainability. He energized the faculties on how to activate the sensors in our body in an organized way. He explained the shortcut methods to understand the things in an easy understandable way. He lime lighted the seven major steps to be followed for success in life and they are Behavior, Speaking, Reading, Planning, Writing, Time management and Health.
