

Report for Webinar on
WORKSHOP ON CLOUD
Conducted on 27th February 2023

Organized by the School of Computer, Information and Mathematical Sciences (SCIMS), Department of Computer Applications

CONVENERS

1. Dr.S.Pakkir Mohideen, HoD/CA
2. Dr.P.Sheik Abdul Khader, Sr.Prof/CA and Prof.In-Charge, Library
3. Dr.Jaya, Prof / CA

CO-ORDINATORS

1. Dr.S.Shahar Banu
2. Ms.P.Padmavathy
3. Mr.V.M.Niaz Ahmed

Webinar on **Workshop on Cloud** was held on 27th February 2023, from 09.30 am to 12.00 pm. The Department of Computer Applications, School of Computer, Information and Mathematical Sciences organized the event.

The Resource person of this webinar was **Mr.Siva Prasad, Founder, and CEO, of Jothna Software Solution.**

The report discusses the following aspects of the programme:

- ❖ The workshop was featured by Mr. Siva Prasad as a resourced person.
- ❖ The webinar was attended by all the students and faculties of the department, as well as other participants who were interested in learning more about Cloud

- ❖ The training workshop had the objective to familiarise the participants with existing cloud technology.
- ❖ The workshop also intended to activate the participants to identify the working of public and private clouds in the technology industry and with some technical tools in planning logical framework methodology.
- ❖ The participants were asked to focus on specific objectives in the field of cloud during the workshop to identify the priorities and to develop strategies for implementation of these public, private, and hybrid clouds like Amazon Web Services(AWS), Microsoft Azure, Google Cloud, and HP, etc.,
- ❖ The attendees had an opportunity to ask questions and interact with the speaker during the workshop.
- ❖ The speaker provided thoughtful responses to each query, which helped to further clarify some of the more complex concepts.
- ❖ The speaker briefly explained all the concepts of Cloud app development and deployment.
- ❖ The participants understand the three important key aspects of the cloud which are IaaS, PaaS, and SaaS.
- ❖ At last, the speaker insists our participants remember the 5 exceptional things of cloud. i.e.,
 1. The cloud can help make our computers last longer.
 2. The cloud is not(quite) infalliable.
 3. The cloud could get you into trouble (if we don't plant carefully).
 4. Our data might be more secure in the cloud.
 5. Cloud offers better insight.

The Brochure highlighting the necessary information about the workshop on Cloud was designed and circulated. The Brochure is displayed below:
