SCHOOL OF SOCIAL SCIENCES AND HUMANITIES**

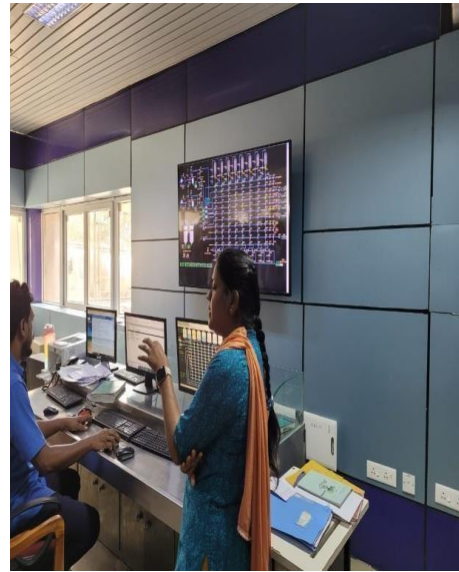

**FIELD VISIT
TO
TAMILNADU CO-OPERATIVE MILK PRODUCERS FEDERATION LTD
(AAVIN)
ON
01.02.2024**

Field visits are an integral aspect of teaching that aim to improve every student's educational experience by giving them a chance to learn outside of the classroom. A one-day field visit to Tamilnadu Co-Operative Milk Producers Federation Ltd (Aavin) was scheduled for 60 students of B.Com (Accounts And Finance) along with them 17 students from Sullamusalam science college, Kerala also accompanied the field visit on 1st February, 2024, escorted by Dr.N.A.Arshiya Afrin(Facility),Dr.K.Porkodi(Facility)and Mr.Nizamudin(Research Scholar). Our visit kicked started with half an hour introduction video session on Aavin till date with the help of Mr.Thiyagarajan (Manager) of Sholinganallur dairy products.

Followed by factory visit, were everyone got to experience how raw milk is brought securely from various parts of the state and gathered in milk boilers and later on getting disturbed for packaging.

Followed by factory visit, were everyone got to experience how raw milk is brought securely from various parts of the state and gathered in milk boilers and later on getting disturbed for packaging.

From there everyone got to understand the mechanism of how dairy milk control room works and how milk quality is tested in laboratory, along with that some of the highlights regarding marketing strategies and maintains of daily books were shared to us.

Finally we skilled on real time packing of milk in Aavin packets, ended our visit by enjoying some of fresh Aavin products.

Students Feedback

My name is Nafisad Afeesa.J(RRN:23144601021), currently pursuing B.Com(Accounts and Finance) in section”A”. Recently, I had the privilege of embarking on my first industrial visit, an experience that left me thoroughly impressing one. Witnessing the inner workings of a manufacturing unit up close was truly captivating. It allowed me to gain valuable insights on fintech applications in areas such as mobile banking, digital payments, supply chain financing, and agricultural credit scoring relevant to the dairy sector,including quality control measures, hygiene standards production process and how Aavin works 24*7 without a break. This inaugural visit underscored the immense value of industrial tours in providing students like me with a firsthand understanding of industrial operations, machinery functioning, and underlying principles. Stepping out of the conventional classroom setting, these visits offer a refreshing break from the routine lectures, fostering practical learning and facilitating direct interactions with faculty members and industry experts. Such experiences are instrumental in preparing students for the realities they will encounter in their future endeavors.

Iam Vetreevel.G.J(RRN:23144601055),from B.Com (Accounts and Finance) “A” section, our department has organized one day industrial visit to Aavin diary on February 1st, 2024. From the moment I stepped in, I was greeted by a remarkably tidy environment, and the staff exhibited exemplary patience and clarity in explaining each process. The facility itself was immaculately clean and well-maintained, showcasing a strong dedication to hygiene and sanitation standards. The products showcased were of exceptional quality, with meticulous attention to ensuring freshness and purity. I had an opportunity to experiences how financial needs and challenges in lending practices, farm credit programs, government subsidies, and insurance has been designed to support dairy farmers, moreover I had fun experiencing how milk is processed, pasteurization, and then packed in milk packages. Overall, my visit to Aavin Sholinganallur diary was truly outstanding, and I wholeheartedly endorse their products to anyone in search of top-tier service and quality goods.
